Creating Things for Motion

Just for You-production

Bühler
myway

Everything is possible!

Just for You-production means maximum flexibility: proven Bühler drives can be freely combined with a nearly endless number of accessory parts such as hall sensors, encoders, formed sheetmetal parts, toothed gears, belt pulleys, flexible leads, connectors, turned and milled parts, adapters and brackets.

+ Hall sensors
+ Encoders
+ Formed sheetmetal parts
+ Belt pulleys
+ Flexible leads
+ Brackets
+ Connectors
+ Turned parts
+ milled parts
+ Adapters
+ toothed gears

- Delivery times:
 - 4 weeks when ordering parts kept in stock
 - 8 weeks when quickly retrievable standard parts are ordered
- Custom short production runs, starting at just 99 units
- Expertise of an automotive supplier
- Quality standards of a large-scale manufacturer

Service and Expertise

Bühler Motor is your competent partner for precisely fitting mechatronic drive solutions. At Bühler, development expertise is combined with process competence and large-scale production experience. As a supplier to the automotive and aerospace industries, Bühler Motor is accustomed to combining the most stringent quality requirements with consistent cost consciousness.

Come to Bühler for all your drive solutions. Our sales staff will help you design a motor or gear motor that meets your exact needs. Our engineers will determine the feasibility and cost of your project. In no time at all, you will receive a firm quote or an alternative recommendation from us.

A team of design engineers and our skilled staff will support your order from development through production, using well-established processes and clear documentation. In this way, we can fill repeat orders quickly and keep track of your custom solution.
